

Electrical Cabinet | Industrial Enclosures | Cable Junction Boxes
19" Server Racks | Distribution Enclosures

ELECTRICAL CABINET

PERLE ABS

- Protection degree IP 67
- Impact resistance IK10
- Internal hinges
- UV-resistance
- Various mounting domes
- Pre-stamping for flange plates

PERLE PC

- Protection degree IP 67
- Impact resistance IK10
- Lockable door
- included mounting plate
- Various mounting domes
- Wide range of accessories

FLEET

- Protection degree IP 65
- Grey or transparent door
- Impact resistance IK08
- Robust plastic switch cabinet
- Optional safety lock
- Mounting plate included

TREVA-INOX

- Protection degree IP 66
- AISI 304L or 316L stainless steel
- Supplied cable flange plate
- Coating sated Scotch 320
- Optional safety lock
- Wide range of accessories

TREVA-ATEX

- Protection degree IP 66
- Robust sheet steel (IK09)
- Supplied cable flange plate
- ATEX component certification
- Optional safety lock
- Wide range of accessories

TREVA

- Protection degree IP 66
- Robust sheet steel (IK09)
- Supplied cable flange plate
- Special polyester coating
- Optional safety lock
- Wide range of accessories

CABLE JUNCTION BOXES

HANSE-SNS

- Protection degree IP 55
- Stepped rubber entries
- Self-tapping screws
- Simplified installation
- Wide range of accessories
- Various mounting domes

HANSE-KPL

- Protection degree IP 66
- Metric imprints
- Integrated connection terminals
- Incl. Sealing diaphragms
- Simplified installation
- Various mounting domes

HANSE-SNL

- Protection degree IP 55
- Stepped rubber entries
- Plastic hinge screws
- Simplified installation
- Wide range of accessories
- Various mounting domes

HANSE-MBR

- Protection degree IP 65/67
- Injected diaphragm inlets
- 2-component production
- Simplified installation
- Wide range of accessories
- Various mounting domes

INDUSTRIAL ENCLOSURES

ST. PAULI

- Protection degree IP 65
- Grey or transparent covers
- High quality plastic housing
- Optional metric embossing
- Large housing cover
- Various mounting domes

HANSE-GLT

- Protection degree IP 65
- Grey or transparent covers
- High quality plastic housing
- Optional high covers
- Self-tapping screws
- Various mounting domes

MICHEL

- Protection degree IP 66/67
- Grey or transparent doors
- Modular height concept
- Optional metric pre-stamping
- Various mounting domes
- Optimal use of inner space

HANSE-SSR

- Protection degree IP 65
- Grey or transparent covers
- High quality plastic housing
- Plastic hinge screws
- Various mounting domes
- Wide range of accessories

ALSTER

- Protection degree IP 66/67/68
- Impact resistance IK09
- Die-cast aluminum
- Integrated threaded holes
- EMC basic protection
- High quality optics

ELBE

- Protection degree IP 65
- High quality design
- Plastic housing
- Various sizes
- Self-forming screws
- UV-resistance

19" SERVER RACKS

KONTOR

- Different height units
- Pivoting glass door
- Integrated cylinder lock
- Pre-stamping for cable routing
- Optional active ventilation
- Galvanized profile rails

DISTRIBUTION ENCLOSURES

DISBOX-T

- **Surface-mounted distribution box**
- Protection degree IP 40
- White or transparent door
- 12-42 modules
- PE&N connection terminals
- Optional safety lock

DISBOX-DA

- **Surface-mounted distribution box**
- Protection degree IP30
- Without door, open construction
- 2-42 modules
- PE&N connection terminals
- Protective covers Modules

DISBOX-F

- **Surface-mounted moisture-proof distribution box**
- PE&N connection terminals
- Optional safety lock
- Protection degree IP65
- Transparent door
- 4-36 modules

DISBOX-K

- **Flush-mounted distribution box**
- Protection degree IP40
- White metal door
- 12-70 modules
- 650°C or 850°C glow wire test
- Optional safety lock

DISBOX-XA

- **Surface-mounted distribution box**
- Protection degree IP40
- White door
- 24-54 modules
- Optional earthed socket
- Optional safety lock

DISBOX-MA

- **Surface-mounted distribution box**
- White or transparent door
- PE&N connection terminals
- Protection degree IP40
- 8-54 modules
- Optional safety lock

DISBOX-MT

- **Flush-mounted distribution box**
- White or transparent door
- PE&N connection terminals
- Protection degree IP40
- 8-54 modules
- Optional safety lock

DISBOX-G

- **Flush-mounted distribution box**
- Protection degree IP40
- White or transparent door
- 12-42 modules
- Optional safety lock
- Special design multimedia distributor

DISBOX-XT

- **Flush-mounted multimedia distributor**
- Protection degree IP40
- Metal door in white
- Mounting plate
- 12-70 modules
- Optional safety lock

DISBOX-DT

- **Flush-mounted distribution box**
- PE&N connection terminals
- Optional 2-row terminals
- Protection degree IP40
- White or transparent door
- 12-42 modules
